Course Code: ECON 105 Course Title: Economic History and Development of Bangladesh

**Course Type (GED/Core/Elective)**: Core Year/Level/Semester/Term: 1<sup>st</sup> Year Academic Session: 2021-22 & 2022-23 Course Teacher/Instructor: Pre-requisite (if any): None Credit Value: 04 Contract Hours: 60

**Course Rationale**: Knowledge of the historical perspective and the development process of a country acts as a precursor to present and future economic policies. Sound economic policies need a careful study and rigorous analyses of the tradition and culture of a nation besides a close scrutiny of the past economic policies.

**Course Objective**: The principal objective of this course is to familiarize students with the economic history and the structure of the Bangladesh economy such that the students gain comprehensive knowledge of the past and present economic activities. The course also presents and analyzes the macroeconomic indicators of the country in terms of their composition and trends. 333

Course Learning Outcomes: After successful completion of the course, students will be able to:

- 1. understand various historical aspects of Bangladesh economy;
- 2. correlate historical events to current socio-economic development of Bangladesh;
- 3. understand the structure of the Bangladesh economy;
- 4. gain comprehensive knowledge of the economic activities such as agriculture, manufacturing, service and trade; and
- 5. identify various sources of finance and constraints of finance in the economy.
